

Avenir AI Video Script

English Version - Lead Intelligence Demo

Opening Hook

What if I told you that every time someone fills out your contact form, that lead could get instantly analyzed, scored, and prioritized — before you even open your inbox?

Live Demo Setup

Let me show you exactly how this works in real time. I'm going to submit a test lead, and you'll see it appear instantly in the client dashboard — fully analyzed by AI.

Watch this.

Test Lead Submission

I've filled out the contact form with a simple message: "I need an estimate for a kitchen renovation project. We're looking to start in two weeks and have a budget of \$25,000. This is urgent."

Now I'm submitting the form... and switching straight to the dashboard.

AI Analysis Reveal

Look at that — the lead appeared instantly with full AI analysis.

The AI immediately recognized this as a kitchen renovation project. It detected that she's ready to start soon, flagged the lead as urgent, and relayed that insight directly to you.

The Magic Moment

This is where the magic happens.

Your Avenir AI Dashboard shows you exactly which leads to focus on — the ones that are ready to buy.

Instead of chasing every inquiry and hoping for the best, you log in, filter for high-urgency leads, and reach out to the ones that matter most.

Problem Solution

No more tire-kickers. No more missed opportunities because you called a serious buyer too late.

Results & Social Proof

Our clients are seeing higher conversion rates, faster responses, and more deals closed — with less effort. And that's just the start.

Call to Action

If you want to see how this works for your business, book a free demo call today.

I'll show you, live, how Avenir AI turns your incoming leads into real opportunities.
