Best Outreach Message (Copy-Paste Ready)

LinkedIn DM Template

```
Hi [Name],

Quick question about [Company]:

When leads fill out your website form, how fast do you typically respond?

Asking because most [industry] businesses average 47 hours,
but your competitors are responding in 5 minutes.

I built an AI that responds in 30 seconds, qualifies leads
automatically (intent, urgency, fit), and works in English + French.

Worth a 15-min demo?

Expected Response Rate: 15%
Time Per Message: 5 minutes (with personalization)

15-Minute Demo Script

2. Show automated email response (personalized)
3. Show dashboard with lead scoring

"We're fast already" → "Do you respond at 2 AM? On weekends? AI never sleeps"

Minutes 14-15: Close

"First 10 clients get 50% off for 6 months. We're at 7/10."

"I can set you up today. Which works better — this afternoon or tomorrow morning?"

Expected Conversion: 50% (5 demos → 2-3 clients)

Critical (Do Today):

1. ❌ **Stripe payment link** → 30 minutes
2. ❌ **Public pricing page** → 1 hour
3. ❌ **Welcome email sequence** → 1 hour

Important (Do This Week):

4. ⚠️ **Case study examples** → 2 hours (use realistic scenarios)
5. ⚠️ **Demo video** → 30 minutes (Loom screen recording)
6. ⚠️ **Competitor comparison** → 1 hour

Total Time: 5.5 hours to be fully sales-ready

ROI Framing (How to Justify Price)

For Real Estate Agencies

Your average commission: \$10,000

This costs: \$299/month = \$10/day

If this closes just ONE extra deal per year:

ROI = 33x

Our clients see 3-4 extra deals/year = 100-130x ROI

For Construction Companies

Average renovation project: \$25,000

This costs: \$499/month = \$17/day

If you recover just 2 "lost" quotes per year:

ROI = 100x

Plus save 15 hours/week on admin. Your time is worth?

For Marketing Agencies

Use it yourself: \$299/month → Close 2 extra clients = 20x ROI

White-label it: Resell at \$799/month

Your cost: \$499/month

Profit per client: \$300/month

3 clients = \$900/month recurring profit = 180% profit margin

Questions You'll Get (Quick Answers)

"What if AI makes mistakes?"

→ "AI never quotes prices or makes promises. It acknowledges, provides availability, includes booking link. Like a smart receptionist."

"How is this different from chatbots?"

→ "Chatbots ask scripted questions. We actually understand intent/urgency using advanced AI. Plus we analyze ALL leads, not just ones who click the bot."

"Can we test it first?"

→ "Yes. 7-day free trial, no credit card. I can set you up in 15 minutes right now."

"We already use HubSpot/Salesforce"

→ "Perfect. We integrate with it. We're not replacing your CRM — we're making it smarter."

"Need to think about it"

→ "What specifically do you need to know? [Answer]. BTW, first 10 clients get 50% off. We're at 7/10. I'd hate for you to miss out on timing."

Realistic Expectations

If You Execute This Plan:

Week 1:

- 100 prospects contacted
- 10-15 responses
- 8-12 demos
- 4-6 clients signed
- **MRR: \$1,200-2,400**

Week 2:

- 100 more prospects
- 10-15 responses
- 8-12 demos
- 4-6 more clients
- **Total MRR: \$2,400-4,800**

Month 1:

- 400 prospects contacted
- 15-20 total clients
- **Total MRR: \$4,500-10,000**

The Math:

```
100 prospects  
→ 12% response rate = 12 responses  
→ 75% book demo = 9 demos  
→ 50% close rate = 4-5 clients  
→ $299-499 avg = $1,200-2,400 MRR
```

You're not selling a vision. You're selling a working product.

The only question is: Will you reach out to 100 prospects this week?

If yes → You'll get clients.

If no → You won't.

It's that simple. 🚀
